

How to Change Your Apple ID

What You'll Need First

- Access to the email address you want to use as your new Apple ID.
- Your current Apple ID password.
- Your new email password.

On an iPhone or iPad

1. Open the Settings app.
2. Tap Your Name at the top of the screen.
3. Select **Sign-In & Security**.
4. Tap **Apple ID**. (You may be asked to enter your password.)
5. Enter the New Email Address you want to use. Apple will send a verification code to that email.
6. Check Your Email and enter the code when prompted.
7. Your Apple ID is now updated!

On a Mac

1. Go to System Settings (or System Preferences on older Macs).
2. Click your name (Apple ID) in the sidebar.
3. Select **Sign-In & Security**.
4. Click **the + sign**.
5. Enter the new email address.
6. Verify with the code Apple sends to your new email.

On the Web

1. Visit appleid.apple.com and sign in.
2. Click **Sign-In**.
3. Enter the 2FA code sent to your phone.
4. Select **Email & Phone Numbers** in the Sign-In and Security page.
5. Click the circle icon beside **primary email** to change to the new email address.
6. Verify with the code Apple sends to your new email.

Tip: If your Apple ID is linked to an iCloud email (like @icloud.com), the iCloud address will be changed to a alias for your new Apple ID.
